Source: National Oceanic & Atmospheric Administration, www.noaa.gov/climate

Reminder: read_csv()

- Useful keyword options
 - names: assigning column labels
 - index_col: assigning index
 - parse_dates: parsing datetimes
 - na_values: parsing NaNs

PANDAS FOUNDATIONS

Let's practice!

PANDAS FOUNDATIONS

Statistical exploratory data analysis

Reminder: time series

- Index selection by date time
- Partial datetime selection
- Slicing ranges of datetimes

```
In [1]: climate2010['2010-05-31 22:00:00'] # datetime
```

```
In [2]: climate2010['2010-06-01'] # Entire day
```

```
In [3]: climate2010['2010-04'] # Entire month
```

```
In [4]: climate2010['2010-09':'2010-10'] # 2 months
```

Reminder: statistics methods

- Methods for computing statistics:
 - `describe()`: summary
 - `mean()`: average
 - `count()`: counting entries
 - `median()`: median
 - `std()`: standard deviation

PANDAS FOUNDATIONS

Let's practice!

PANDAS FOUNDATIONS

Visual exploratory data analysis

Line plots in pandas

Line plots in pandas

```
In [1]: import matplotlib.pyplot as plt
```

```
In [2]: climate2010.Temperature['2010-07'].plot()
```

```
In [3]: plt.title('Temperature (July 2010)')
```

```
In [4]: plt.show()
```

Histograms in pandas

Histograms in pandas

```
In [5]: climate2010['DewPoint'].plot(kind= 'hist', bins=30)
```

```
In [6]: plt.title('Dew Point distribution (2010)')
```

```
In [7]: plt.show()
```

Box plots in pandas

Box plots in pandas

```
In [8]: climate2010['DewPoint'].plot(kind='box')
```

```
In [9]: plt.title('Dew Point distribution (2010)')
```

```
In [10]: plt.show()
```

Subplots in pandas

Subplots in pandas

```
In [11]: climate2010.plot(kind='hist', normed=True, subplots=True)  
  
In [12]: plt.show()
```

PANDAS FOUNDATIONS

Let's practice!

PANDAS FOUNDATIONS

Final thoughts

You can now...

- Import many types of datasets and deal with import issues
- Export data to facilitate collaborative data science
- Perform statistical and visual EDA natively in pandas

PANDAS FOUNDATIONS

**See you in the
next course!**
